

Custom metal gift sets, built around your brief

China-based sourcing partner. We recommend set direction, materials, and packaging — you keep the client relationship.

BUILT FOR ONBOARDING, EXECUTIVE GIFTING, CLIENT APPRECIATION, AND WELLNESS PROGRAMS

Curated sets matched to the procurement briefs your clients run most often. Each set carries a clear use case your team can pitch in one line, and a recipient experience that holds up after the unboxing.

VERIFIED MATERIAL SPECS — BRASS, TITANIUM, STAINLESS STEEL, ALUMINIUM, AND ADJACENT ALLOYS

Solid material, not coated impersonations. Specs your client's procurement brief can quote directly: alloy, finish, dimensions, weight, and customization method — written for B2B procurement, not marketing copy.

BRIEF TO DIRECTION IN 24 HOURS

Send recipient profile, quantity range, and budget. We respond with set direction and materials recommendation the next business day — so your client conversation can move forward without waiting.

REPEAT-ORDER PRICING LOCKED — YOUR CLIENT PROGRAM RUNS WITHOUT RESTART

Onboarding intake, year-end recognition, milestone gifts. Set specs, pricing, and lead times stay consistent across repeat orders — your client's gifting cycle continues without re-quoting and re-

sampling each round.

50–500 sets per project

LEAD TIME

25–35 days production

PAYMENT

RESPONSE

Within 24 hours

Give your clients a complete answer, not just a product

A curated metal set is a finished brief response — recipient profile considered, materials selected, packaging specified, logo method confirmed. You present the concept. We handle everything behind it.

EXAMPLE SETS
