

CUSTOM METAL CORPORATE GIFT SETS

Custom
metal
gift sets,
*built around
your brief.*

China-based sourcing partner. We recommend set direction, materials, and packaging — you keep the client relationship.

BRIEF TO DIRECTION IN ONE BUSINESS DAY

*Your client
conversation
moves forward —
not backward.*

Send recipient profile, quantity range, and budget. We respond with set direction and a materials recommendation within one business day — so your client conversation moves forward without waiting on sourcing.

VERIFIED MATERIAL SPECS

*Brass, titanium,
stainless steel —
specs your brief
can quote directly.*

Solid material, not coated impersonations.
Alloy, finish, dimensions, weight, and
customization method — written for B2B
procurement, not marketing copy.

REPEAT-ORDER PRICING LOCKED

*Your client's
gifting cycle
continues without
re-quoting each
round.*

Onboarding intake, year-end recognition,
milestone gifts. Set specs, pricing, and lead
times stay consistent across repeat orders
— your client program runs without restart.
