

DISTRIBUTOR SHORT FLYER 2026

Curated *Gift Sets* Built to Rework

Ready-to-present corporate gift set concepts for distributors, agencies, and promotional product teams. Start with a complete set, adjust the components, then quote by quantity, branding method, packaging, destination, and timeline.

8 READY SET CONCEPTS

30+ COMPONENTS

DDP BY PROJECT

This short flyer is designed for first review. The full catalogue and project pricing can follow once a client brief, quantity, budget range, and destination are known.

8 READY-TO-PRESENT PROGRAMS

Gift sets first. Components second.

Each concept gives a distributor something visual and client-friendly to present immediately. The product mix is not fixed: components, materials, finishes, packaging, and logo placement can be adjusted around the client's budget and campaign context.

WGS-001-3

The Desk Starter

Desk, conference, SME gifting, sustainability-led programs

WGS-002-3

The Mechanical Desk

Tech, engineering, design studios, executive teams

WGS-003-3

The Pocket Three

EDC, HR programs, finance, client appreciation

WGS-004-3

The Field EDC

Field service, logistics, construction, safety teams

WGS-005-3

The Morning Ritual

Executive gifting, premium HR, finance, travel programs

WGS-006-3

The First Day

Employee onboarding, badge programs, co-working welcome kits

WGS-007-3

The Thinking Desk

Client appreciation, leadership teams, desk-focused campaigns

WGS-008-4

The Quartet

VIP programs, executive welcome kits, premium corporate gifts

12 SAMPLE COMPONENTS

A focused library, not a fixed menu.

These are representative pieces from the broader 30+ component library. They show the material direction and branding surfaces available for gift set development.

For distributor projects, the same set concept can be rebuilt with different components, finishes, packaging, or budget levels.

Catalogue components	30+

150ml - shirt-pocket format

BUILT FOR DISTRIBUTOR WORKFLOWS

Send a brief. *We build* the quote path.

We are not positioning this flyer as a full commodity catalogue. It is a focused gift set program backed by sourcing, branding, packaging, and project-by-project DDP quotation.

For North American projects, landed pricing depends on quantity, decoration method, packaging, destination, and required timeline.

30+ available components, custom sourcing available by brief. Share the client context, target budget, quantity, destination, logo method, and delivery date, and we can prepare a focused option list.

01

CHOOSE A STARTING CONCEPT

Select one of the 8 ready gift set concepts, or use them only as a visual direction for the client presentation.

02

ADJUST THE COMPONENT MIX

Swap components from the 30+ library, change materials or finishes, and align the set to the client's budget range.

03

CONFIRM BRANDING AND PACKAGING

Logo method, placement, gift box style, insert, sleeve, and printed packaging are quoted with production feasibility in mind.

04

QUOTE DDP BY PROJECT

We quote based on quantity, destination, timeline, packing volume, and shipment method, rather than sending a generic price sheet.

05

SAMPLE BEFORE BULK

Reference samples and custom samples support distributor review before final production approval.
