CATALOGUE 2026 · WISCHOSGIFT.COM

WISCHOS GIFT · CORPORATE GIFT SETS 2026

THE COLLECTION

Useful.
Interesting.
Refined.

Each set is arranged around a practical business context — onboarding, desk work, field teams, executive gifting, or client appreciation. Three to four precision metal tools, matched gift box packaging, and full custom logo marking. The sets shown are starting points, not fixed limits. Buyers can adjust combinations, materials, finishes, and packaging according to quantity, budget, and production feasibility.

- Laser engraving, annealing, chemical etching, colour marking across brass, aluminium, stainless steel & titanium
- Hot foil stamping, blind debossing, UV & silk-screen printing on gift box surfaces
- Upgrade options: soft-touch lamination, printed interior liner, wood sleeve, waxed canvas pouch

BUILD YOUR OWN SET

- Mix & match from 30+ component library items
- Adjust materials, finishes, and packaging to fit budget
- Source new components beyond the catalogue — send a brief

GIFT SET STARTING POINTS

The Desk Starter
Three tools. Every desk.

Desk · Conference · ESG Kraft Rigid Box

The Mechanical Desk
Built for the desk, used with your hands.

Built for the first day at work.

Onboarding · HR · Tech Magnetic Closure Box

The Thinking Desk
For desks where ideas happen.

Client Appreciation · Executive Magnetic Closure + EVA

The Quartet
Ready before the first meeting.

VIP · Finance · Executive Magnetic + Soft-Touch

WGS-001-3

The Desk Starter

Three tools. Every desk.

A custom desk gift set for daily branded visibility. Inkless pen, letter opener, metal bookmark — all anodised aluminium, all laser-engravable. For SME gifting, conference welcome packs, and sustainability-conscious procurement.

COMPONENTS — 3 PIECES

- **Executive Dual-Head Metal Pen**
Gunmetal anodised aluminium · 144mm · 23.3g · Inkless tip + 0.5mm rollerball
 - **Executive Zinc Alloy Letter Opener**
Zinc alloy, high-gloss electroplated · 230mm · 74g · Silver / Gold / Rose Gold
 - **Precision Custom Metal Bookmark**
Brass / Stainless Steel / Zinc Alloy · 120–150mm · ~20g · Custom silhouette available
- **Zero-waste story** — inkless tip, no cartridges or refills to replace
 - **Bookmark fully customisable shape** — carries complete brand logo as a desk-visible object
 - **Consistent material language** — anodised aluminium and zinc alloy across all three pieces

Packaging: Kraft Rigid Box · Flocked EVA Insert

Inquiry for pricing & MOQ

Branding shown is illustrative. Every piece leaves the factory marked with your logo — engraved to your specification, not ours.

WGS-002-3

The Mechanical Desk

Built for the desk, used with your hands.

Three mechanical actions: bolt-action writing, propeller spin opening, precision fold for device support. Solid brass and anodised aluminium. Suited to design studios, tech firms, consulting, and executive gifting programs.

COMPONENTS — 3 PIECES

- **Brass Crown Bolt-Action Pen**

Brass + aluminium body + SS clip · 138mm · 28g · G2 refill · Forest Green / Matte Black

- **Propeller Spinning Letter Opener**

Zinc alloy, matte brushed silver · 187mm · 85g · Propeller spin mechanism

- **Precision Folding Aluminium Device Stand**

6061-T6 aluminium, anodised · 182×60×18mm folded · 150g · MagSafe-compatible

- **Three distinct mechanisms** — bolt-action click, propeller spin, precision fold
- **Device stand at eye level** — brand mark visible in every meeting and call
- **Solid brass develops surface character** over time — suited to direct hand interaction

Packaging: **Magnetic Box · EVA Foam Insert**

WGS-003-3

The Pocket Three

Everything in your pocket. Nothing you don't need.

Branded everyday carry for teams that move between offices, meetings, sites, and travel. Brass, stainless steel, and titanium — each material chosen for its function. Brand moves with the recipient all day.

COMPONENTS — 3 PIECES

- **Industrial Brass Key Organizer**
Solid brass, polished · 60–87mm · 11–18g · Holds up to 10 keys
 - **Industrial Stainless Steel Money Clip**
Industrial grade stainless steel · ~20g · Spring tension · Front-face engravable
 - **Titanium Anti-Static EDC Comb**
Titanium alloy, sandblasted · 100mm compact · Anti-static · Integrated bottle opener
- **Brass + Stainless + Titanium** — each material matches its product's function
 - **All-day carry frequency** — brand present throughout the full working day
 - **Suitable for mixed teams** — keys, cards, comb fit any role or environment

Packaging: Tin Box

WGS-004-3

The Field EDC

Built for the field. Sharp enough for the office.

A utility gift set for field service, logistics, construction, and safety teams. Writing, prying, cutting — three compact stainless tools selected for people working in physical environments who judge gifts by whether they solve immediate tasks.

COMPONENTS — 3 PIECES

- **Tactical Stainless Steel Pen**
303 Stainless Steel HRC 40–45 · 152mm × 14mm · 102.8g · Tungsten-carbide glass breaker
- **Industrial Mini EDC Pry Bar**
Stainless Steel or Titanium Alloy · ~70mm · 12g · Prying, lifting, quick-tool tasks
- **EDC Folding Metal Scissors**
2CR13 Stainless Steel, satin silver · 90mm folded / 145mm open · 41.9g

- **Stainless steel throughout** — consistent durability narrative, no pretence
- **Tactical pen glass breaker** — real safety utility for field and vehicle contexts
- **Writing, prying, cutting** — three distinct field functions, low overlap

Packaging: **Tin Box or Kraft Rigid Box** Inquiry for pricing & MOQ

Branding shown is illustrative. Every piece leaves the factory marked with your logo — engraved to your specification, not ours.

A close-up photograph of two precision metal objects resting on a dark, textured surface. On the left is a long, rectangular metal tool with a series of vertical slots along its length and a small circular hole at one end. On the right is a sleek, cylindrical metal pen with a fine, ribbed texture. The lighting is soft and directional, highlighting the metallic sheen and the textures of both the objects and the surface.

MATERIALS & MARKING

Precision metals. *Multiple marking* techniques.

Brass, titanium, aluminium, stainless steel — each material chosen for the physical demands of its product. Laser engraving, annealing, chemical etching, iridescent colour marking, UV printing — the technique is matched to the surface and finish. Your logo is placed where it is used, not where it is seen once and forgotten.

WGS-005-3

The Morning Ritual

From the morning bag to the working desk.

Titanium and brass. Commute, desk, and after-work — one set that covers three moments in the same working day. For executive gifting, finance, and premium client retention programs.

COMPONENTS — 3 PIECES

- Brass Crown Bolt-Action Pen**
 Brass + aluminium + SS clip · 138mm · 28g · G2 refill · Bolt-action mechanism
 - Pure Titanium Capsule Flask 150ml**
 Pure titanium body · shirt-pocket size · 107–134g · No metallic taste · Food-grade
 - Titanium EDC Carabiner + Bottle Opener**
 Titanium alloy + brass locking core · 53×26×5mm · ~11g · Keychain + bottle opener
- Iridescent titanium colour marking — gold / blue / purple, angle-dependent, rare in B2B gifting
- Pure titanium flask — no metallic taste, food-grade, lifetime carry
- Brass for desk, titanium for carry — materials segmented by use context

Packaging: Magnetic Closure Box · EVA Insert

WGS-006-3

The First Day

Built for the first day at work.

Access. Setup. Desk. Three aluminium pieces supporting the new hire's first week — badge holder, 6-in-1 tool pen, pen holder. Brand visible from the first door entry, and present at the desk from day one.

COMPONENTS — 3 PIECES

- **RFID Aluminium Wallet & Badge Holder**
Aluminium alloy · 95×60×10.5mm · 83g · 12 cards · RFID blocking · Silver or Gunmetal
 - **6-in-1 Precision Metal Tool Pen**
Zinc alloy, electroplated · 149mm · ~30g · Pen + LED + stylus + ruler + screwdriver + level
 - **Precision Aluminium Pen Holder**
6061-T6 aluminium, anodised · Ø100×80mm · ~500g · 2.5mm wall · Gunmetal or Silver
- **Badge holder from day one** — brand at every door, lift, and access point
- **6-in-1 pen** — perceived value far exceeds cost; covers desk setup and meetings
- **Anodised aluminium** across all three — photographs as a single designed system

Packaging: **Magnetic Closure Box · Flocked EVA** Inquiry for pricing & MOQ

Branding shown is illustrative. Every piece leaves the factory marked with your logo — engraved to your specification, not ours.

WGS-007-3

The Thinking Desk

For desks where ideas, meetings, and long sessions happen.

Brass rollerball, brass spinning top, stainless desk cup. For client appreciation and focused work — three objects that belong to the desk routine, each with a different role through the day.

COMPONENTS — 3 PIECES

- **Artisan Brass Rollerball Pen**
Solid brass barrel · weighted hand feel · daily writing and signatures
 - **Precision Brass Spinning Top**
CNC-machined solid brass · desk tactile object · calls, pauses, thinking time
 - **Double-Wall Stainless Desk Cup**
Stainless steel, double-wall insulated · warm drink beside the desk at all times
-
- **Brass develops character over time** — rollerball + spinning top suit direct hand interaction
 - **Spinning top** brings tactile dimension rarely seen in corporate desk sets
 - **Stainless cup** — drink stays at the desk, brand stays visible

Packaging: **Magnetic Closure Box · EVA Insert**

WGS-008-4

The Quartet

Ready before the first meeting.

Four-piece executive gift set for client-facing professionals. Brass pen, titanium cup, aluminium stand, stainless card case — four metals, four parts of the professional day. Writing, warm drinks, device viewing, card exchange.

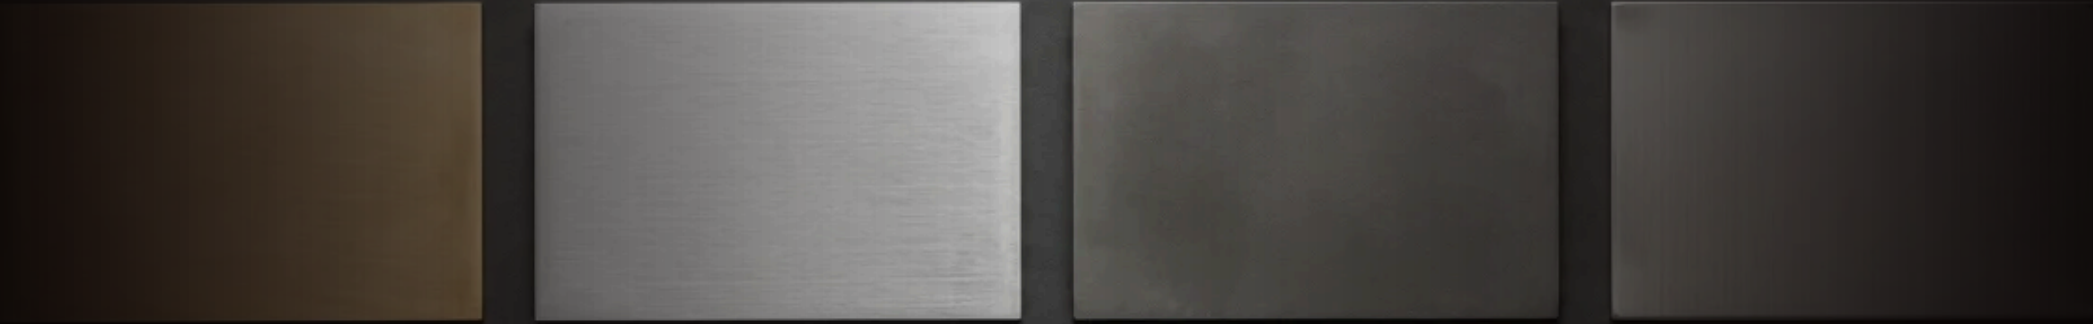

COMPONENTS — 4 PIECES

- **Solid Brass Ballpoint Pen**
Solid brass · 156mm × 7mm · 50g · Signatures + daily writing
- **Titanium Tea Infuser Business Cup**
Pure titanium liner + titanium-gold exterior · 210mm × 65mm · 180g · 480ml · Removable infuser
- **Precision Folding Aluminium Device Stand**
Anodised aluminium · 182×60×18mm folded · 150g · Phone/tablet at eye level
- **Slim Push Stainless Business Card Case**
Brushed stainless steel · 103×60mm · 80g · Thumb-push mechanism · 13–18 cards

Packaging: **Magnetic Box · Matte Soft-Touch · EVA Insert** Inquiry for pricing & MOQ

Branding shown is illustrative. Every piece leaves the factory marked with your logo — engraved to your specification, not ours.

LOGO CUSTOMISATION

Every surface. *Precisely marked.*

ON METAL SURFACES

Precision
Metal Marking

Every metal component can carry your brand logo. The technique is matched to the material and surface finish for the most durable result.

LASER ENGRAVING · ANODISED ALUMINIUM

Strips the anodised layer to expose raw aluminium. Crisp white logo on dark background — ultra-high contrast, razor-sharp edges.
RFID wallet, pen holder, device stand

LASER ANNEALING · STAINLESS STEEL

Deep-black oxide layer with no material removal. Perfectly flat, watch-grade precision. Permanently corrosion-resistant.
Tactical pen, money clip, scissors, pry bar

LASER MARKING · SOLID BRASS

Matte grey mark on warm polished brass. Artisan feel, soft contrast against the warm gold background.
Brass key organiser, bolt-action pen crown, rollerball

ADVANCED TECHNIQUES

Specialist
Processes

For titanium surfaces and custom bookmark shapes, techniques that go beyond standard engraving for rare, design-forward results.

IRIDESCENT COLOUR MARKING · TITANIUM

Thin-film interference colouring. Low power → gold/yellow. Medium → blue. High → purple. Angle-dependent colour shift. No material removed.
Titanium flask, carabiner, pry bar (Ti version)

CHEMICAL ETCHING · BRASS / STAINLESS

Recessed intaglio logo 0.01–0.3mm deep. No tool marks. Polished-vs-matte contrast. Optional enamel colour fill.
Precision custom metal bookmark

UV MULTI-COLOUR PRINTING · FLAT METAL

Full-colour photographic quality. Vibrant CMYK/Pantone gamut. High-gloss finish. Can include gradients and complex artwork.
Pen clip, flat metal surfaces

ON GIFT BOX

Packaging
Branding

The gift box carries your brand before the products are removed. Logo marking options work across all standard box formats.

HOT FOIL STAMPING

Gold, silver, or copper metallic foil on matte art paper. Strong contrast, crisp edges, applied under heat and pressure for durability.
All box types — lid face and side panels

BLIND DEBOSSING

Logo pressed into paper without metallic foil. Tone-on-tone tactile mark. Quiet luxury feel on matte and soft-touch surfaces.
All box types — lid face preferred

UPGRADE OPTIONS

- Soft-touch lamination — velvet-feel exterior
- Printed interior liner — brand message, QR code, welcome note
- Wood sleeve — paulownia or walnut for executive gifting
- Waxed canvas roll pouch — field organiser after unboxing

SOURCING PARTNER, NOT A SINGLE FACTORY

One contact.
Every step
accountable.

We are a trading company, not a captive factory. A brass pen, titanium tool, stainless steel drinkware item, and rigid gift box each require different manufacturing strengths. We match each brief to the right production path based on material, finish, quantity, and timeline.

—	ONE CONTACT FROM BRIEF TO SHIPMENT You do not need to coordinate separate product suppliers, packaging vendors, and logo processors. One contact manages the brief, quotation path, sample details, production, and pre-shipment follow-up.
—	PRODUCT AND FACTORY MATCHING We review product type, material, finish, logo method, and target quantity before selecting a production path — keeping the project practical before samples or bulk production begin.
—	VERIFIED MATERIAL CLAIMS Every specification — titanium grade, brass alloy, 304 / 316 stainless — verified before it becomes buyer-facing copy or a sample instruction.
—	QUALITY VISIBLE BEFORE SHIPMENT Sample review, logo approval, production updates, and pre-shipment photos included. Nothing ships without your written sample approval.
—	MOQ FROM 100 SETS · ~30-DAY LEAD TIME Standard minimum 100 sets. Production approximately 30 days after sample approval. Smaller quantities available for select configurations.
—	COMPLIANCE REPORTS ON REQUEST LFGB, REACH, FDA, and CPSIA test documentation available for relevant products — required for EU and North American procurement programs.

Qualified briefs answered within 1–2 business days.
